INVERRARY SPIRIT

On behalf of your Inverrary Association Officer's for the 2012-2013 term I would like to extend a heartfelt thank you for entrusting us with the leadership of YOUR ASSOCIATION for another year! We have made some improvements to your Inverrary community of communities and hope to do more in the coming year.

Many have noted that the waterfalls have been inactive for several weeks. It was determined that the pumps required significant repairs that necessitated their actual removal from the pump house. By the time this newsletter is delivered it is hoped that our waterfalls will once again be welcoming our residents and their guest to our lovely community.

Your Vice President, Tom Harney, has been very active in the last few months and one of his projects was working with the City of Lauderhill to promote "KEEP LAUDERHILL BEAUTIFUL" 3rd Grade Essay and Art Contest. ARE YOU AND YOUR ASSOCIATION READY?

Emergency Supplies:

Water, food, and clean air are important things to have if an emergency happens. Each family or individual's kit should be customized to meet specific needs, such as medications and infant formula. It should also be customized to include important family documents.

Recommended Supplies to Include in a Basic Kit:

- Water, one gallon of water per person per day, for drinking and sanitation, (three days minimum)
- Food, at least a three-day supply of non-perishable food
- Battery-powered radio and a NOAA Weather Radio with tone alert, and extra batteries for both
- Flashlight and extra batteries
- First Aid kit
- Whistle to signal for help
- Infant formula and diapers, if you have an infant
- Moist towelettes, garbage bags and plastic ties for personal sanitation
- Dust mask or cotton t-shirt, to help filter the air
- Plastic sheeting and duct tape to shelter-in-place
- Wrench or pliers to turn off utilities
- Can opener for food (if kit contains canned food)

Below are some other items for your family to consider adding to its supply kit. Some of these items, especially those marked with a * can be dangerous, so please have an adult collect these supplies.- Emergency reference materials such as a first aid book or a print out of the information on www.ready.gov

- Rain gear
- Mess kits, paper cups, plates and plastic utensils
- Cash or traveler's checks, change
- Paper towels
- Fire Extinguisher
- Tent
- Compass
- Matches in a waterproof container*
- Signal flare*
- Paper, pencil
- Personal hygiene items including feminine supplies
- Disinfectant*
- Household chlorine bleach* - You can use bleach as a disinfectant (diluted nine parts water to one part bleach), or in an emergency you can also use it to treat water. Use 16 drops of regular household liquid bleach per gallon of water. Do not use scented, color safe or bleaches with added cleaners.
- Medicine dropper
- Important Family Documents such as copies of insurance policies, identification and bank account records in a waterproof, portable container

Make sure your family has a plan in case of an emergency. Before an emergency happens, sit down together and decide how you will get in contact with each other, where you will go and what you will do in an emergency. Keep a copy of this plan in your emergency supply kit or another safe place where you can access it in the event of a disaster.
